8 JUN 1971

MEMORANDUM FOR: Director of Special Activities
Director of ELINT
Director of Special Projects
Director of Foreign Missile and
Space Analysis Center
Director of Scientific Intelligence

SUBJECT : Report to the PFIAB for 1971

1. As in past years, O/PPB has requested our assistance in preparing the annual report to the President's Foreign Intelligence Advisory Board.

2. Portions of last year's PFIAB Report which pertain to your function have been reproduced and are attached. Request your office revise or rewrite these sections to reflect changes that have taken place since last year. Particular attention should be given to accomplishments, changing objectives and approaches, priorities, and restrictions and constraints on operations and production. There is no actual limit to the length of the report and individual sections can be expanded if this is believed necessary to present a more accurate and interesting report.

3. Appendix A, Problems and Deficiencies, appears to be of interest to all of the offices addressed by this memorandum in varying degrees. This section is looked upon by the PFIAB as one of the most important elements of the report. O/PPB requests you give particular attention and effort to Major Collection Priorities and Gaps in your contribution.

4. In order that we might meet our deadline to O/PPB, we request the revised and/or rewritten sections be routed to this office NLT 30 June 1971. Any questions on this submission should be directed to [redacted] of this office. They can be reached on extension [redacted]
